

Bangladesh has certainly make remarkable progress in the field of education. The government has taken many steps to concure the burdens of discrimination in the field of education. But yet the government and people have to be more carefull about their duties to erase discrimination. Then Bangladesh can prosper and can make difference.

Cesar Julius

Manager

Crystal Lake Company

53 Oak Company Town

Dell Village, Wisconsin 54101

Dear Mr. Julius,

I would like to introduce my grocery and to let you know that we are interested in selling your product in our store. We have been in this business in 10 years.

We currently have annual income of 200000 taka by selling the following products. Now I am telling about our quantity discount and a suitable method.

n) Shafi was in a difficult situation,
so I agreed to help him.

i) My friend as well as my younger
brother is going with me.

f) I have been learning Spanish since
December.

Such corrupt practice extorting money from poor parents among about half of the government school of the country.

Lack of qualified teachers and poor school facilities in terms of the number of schools, classrooms, libraries and playgrounds are responsible for poor quality education in primary school.

Our secondary and higher secondary curriculum doesn't reflect market or job oriented syllabus. In 2013 a total of 10,02,496 students participated in HSC examination. Among them 7,44,891 became successful.

of payment. In according, there are two different ways that, each discounts can be recorded in the books. The net method and the gross method.

The net method treats sales revenue of the net amount after the given discount and any discount that the buyer doesn't take are recorded as interest revenue.

The gross method views discounts that aren't taken by the buyers as a portion of total sale revenue.

I believe our country can provide a very important and distribution channel for your product in the global market.

Please email me at chotton@gmail.com. So we may speak further.

Sincerely,

Chotton Haman.

Probably WI tribe affected too from this area. There are other factors why WI tribe connections in most remote areas aren't working. Specially the wireless services.

Here are some suggestion;

We should switch our connections to other broad band facilities working in the country. We should, if we want to continue with WI tribe. We must ask them to upgrade their systems, as well as we must upgrade our system simultaneously.

11. a)

Our Education System is Discriminatory

Education is the backbone of a nation. But discrimination in education sector makes it not available for general people. We have many laws that can remove the discrimination but they aren't being applied correctly. According to article 17 of our constitution, all the children of BD are supposed to receive full free education up to secondary level. But in reality it is not so, specially for children from poorer households in rural areas. Recent survey done by BRAC reveals that poor parents have to pay bribe at every step of their child's schooling.

Date : 2 July, 2021

To : All staff

From : Tanmay, Manager, Department of sales.

Subject : Introducing online sales.

Dear Sir,

Hoping you the best of your health. I am here to acknowledge you about the very rising issue now a days. As you know about the recent sales, they are quite low. That's not a good thing to be considered, but the thing that has to get into consideration is rising complaints of the WI tribe connections.

Sir, as you know already, the shortage of electricity caused the low sales and revenue to almost every type of business works in our country.
